

The Non-Reimbursable Expense Tile Non-Travel Expense Reports and Employee Travel Expense Reports.

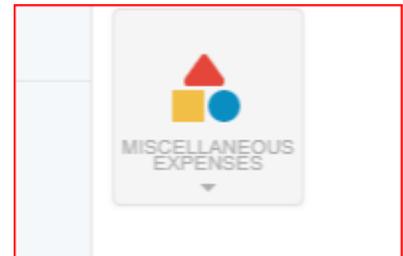

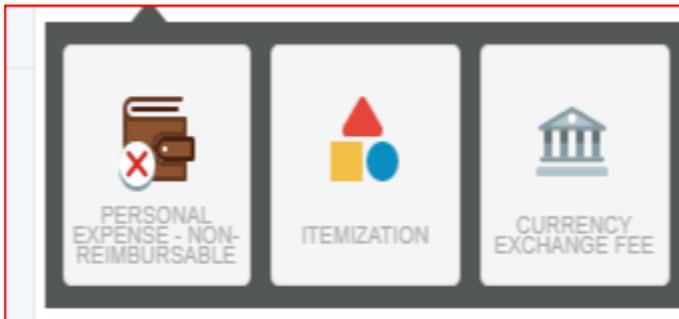

The Personal Expense tile allows the departments to identify **Purchasing Card Expenses** that based on the UI Purchasing Program are unallowable purchases on the program. The unallowable expense could be either the item purchased was unallowable or the cardholder did not follow the proper procedures while using the purchasing card.

The Personal Expense tile is located on both the Employee Travel Report and the Non Travel Report. The presents of this form does not provide approval to the Cardholders for miss use of the Purchasing Card or State funds. The form availability does not provide approval to disregard the established better practices when using the UI Purchasing Card Program.

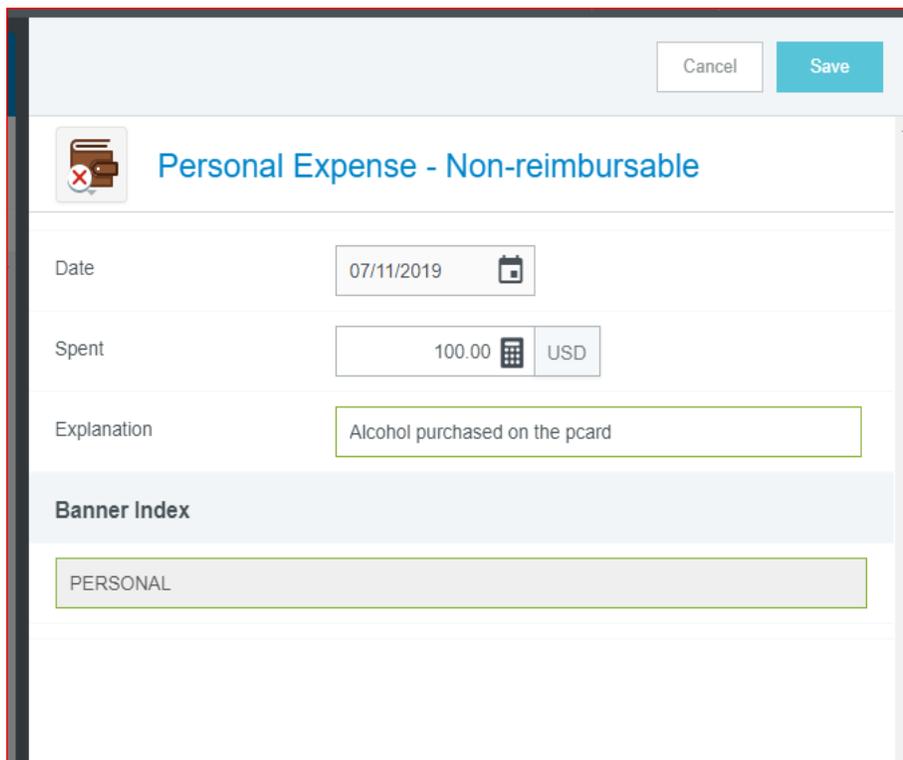

The Personal Expense Tile removes the purchasing card expense from the credit card folder and places the items on the cardholder's personal Accounts Receivable account in order to make payments to the University of Idaho. The payment can be submitted thru the Vandal Web applications or electing to establish Payroll Deduction.

- Tap the Miscellaneous Expense tile
- Tap on the Personal Expense – Non-Reimbursable Tile.
