INDUSTRIAL TECHNOLOGY

The Industrial Technology Bachelor of Science degree program is designed to provide students with the opportunity to develop in-depth knowledge and hands-on experience in basic and advanced industrial processes, procedures, planning, and management.

The degree program requires 122 credits and includes the university requirements ([regulation J-3](#)). There are 98 credits of required courses and 24 credits of electives. Of the 24 elective credits 13 are technical electives and 11 free electives. The required courses for this program are:
